Preface

Welcome to your ITLC Lilly-Austin 2025 Workbook!

This **Workbook** is a collection of exercises and space for reflection. This tool promotes:

- (1) making the most of your time at the conference,
- (2) setting you up for success before stepping foot in a breakout room, and
- (3) supporting your growth and professional development long after you return home with new connections.

This Workbook begins with pages for each day. Track your **Ideas Sparked** from the keynotes presented and from concurrent sessions and networking opportunities. The book continues with **Guided Exercises** that you can complete as you anticipate travelling to San Diego; fill out in mindful moments during the conference; pick up once you are home and reflecting on your experiences; or share with colleagues as you tell them about what you learned. Or maybe all of the above! The Workbook concludes with **Resources** and **Suggestions** on how to prepare a proposal for an upcoming conference – and where and those conferences will be!

We welcome any thoughts you'd like to share about how this Workbook facilitated your experience. We can't wait to host you at the ITLC Lilly Conference Series!

ROUNDTABLE TAKE AWAYS

Exercise 1

THE ONE-MINUTE PAPER

AUSTIN
— TEXAS —

THE ONE-MINUTE PAPER

Start the Timer and
Answer the Following

What do you most enjoy about teaching? Write about what brings you energy and happiness or list the reason(s) you wanted to become an educator.

Exercise 2

COURSE ENRICHMENT

AUSTIN
— TEXAS —

***Take a few moments to think about
the courses you will teach in the
upcoming semester.***

1. Identify one concern or challenge you are anticipating in one or more of these courses.

2. Describe the ideal outcome for the challenge identified.

3. To what extent are the contributing factors to the identified challenge related to student behavior (or lack thereof) and to what extent are the contributing factors related to instructor behavior (or lack thereof)?

4. What strategies might be implemented to assist in moving toward the desired state?

Exercise 3

REVISIT YOUR
TEACHING PHILOSOPHY

Step 1:

Write your teaching philosophy. (Ideally, do this before you attend the ITLC Lilly conference, or pull from an older document.)

Step 2:

Spend some time reviewing notes, doodles, and reflections written during the conference.

Step 3:

Look again at your teaching philosophy. How have the past three days impacted your previous understandings and assumptions? Consider your philosophy in light of questions like the following:

- What new pedagogical research ideas or implications were shared?
- What are you curious about?
- How has this information impacted your stance/assumptions about student learning?
- What instructional activities did you see modeled or described that you would like to incorporate in your teaching practice, based on your new or reframed understandings?

There is no right or wrong amount of change you might feel compelled to make. However you choose to make updates, we encourage you to periodically review your philosophy based on new information, such as additional ITLC Lilly Conferences, or simply the passage of time

As you keep your reflection going, apply principles of metacognition to your teaching philosophy. As you reflect on your practice of evaluating student learning, use questions like the following:

- What method of teaching is your “go-to” strategy? How is it working?
- What is your understanding of your teaching behaviors/classroom culture as they facilitate or impede students’ learning?
- How and when do you intentionally design strong connections between teaching activities/assignments for the purpose of student learning?
- In what instances are specific group activities or assignments not as successful as planned?
- How do you address the affective domain to assist students in finding the value of knowledge gained in the course?
- How do you make clear the implications for what is being taught as related to the student beyond the program of study?
- How do you measure student learning?
- How do you verify that your goals for student learning are being met?
- How do you account for student-defined learning goals?
- What low-stakes and high-stakes opportunities do you include to assess learning and promote risk-taking in the classroom?

Exercise 4

TAKE HOME EXAM

3. Review your notes from the conference and select one new concept or idea to try in the coming two weeks. Describe here briefly what you will attempt. Check back in and write your results in a different (encouraging!) color.

4. Check your networking page. Have you reached out to any new contacts? If yes, reflect on the fruits of those conversations and your next steps. If not, choose one or two contacts, and drop them a note. Write your results here!
